

Technology Project Plan

Name: _____ University Attended: _____

Point Loma MA Program: YES NO

Introductory Technology Course(s) During Your Teacher Preparation? YES NO

Please List Your Area(s) Of Strength Related To Educational Technology:

In What Area(s) Would You Like To Grow?

Potential Technology Project Ideas:

- A lesson that incorporates the use of multimedia (PowerPoint) with your students.
- A lesson that incorporates the use of visual storytelling (digital video production) with your students.
- A lesson that incorporates the use of a spreadsheet and/or online databases with your students.
- The creation of a digital resource that supports student learning (Web tutorial, blog, multimedia, podcast, video, etc.).
- A lesson that incorporates the use of science probeware, graphing calculators or Geometer’s Sketchpad.
- Implementing a library media project with your students that includes a lesson on information literacy.
- Other _____.

Please explain what you’d like to do for you technology project (e.g. *I’d like to create an activity where students are required to use Excel to perform a statistical analysis with data found at DIG Stats <http://www.cvgs.k12.va.us/digstats/>*).

How will it be implemented (e.g. *I plan to have my students complete this analysis in the computer lab during a unit I will be teaching next month on the role of U.S. Census data and how it affects Congressional Representation*)?

Anticipated Completion Date: _____ (month / year)

Participant Signature _____ Tech Signature _____

White Copy – BTSA/Induction Office

Yellow – Portfolio (Technology)
